## DEAL IS COMPLETED TO DEVELOP FAMOUS MINES NEAR DUNCAN

**Strong Financial Group Completes Arrangements To Operate Mount Sicker Properties—Cash Payment Made and Treasury Stock Optioned—Work Will Commence Soon**

**M**INING will recommence on Mount Sicker as a result of a deal concluded in Vancouver, yesterday, by which a strong syndicate of mining men, including A. E. Sjoquist and Rolf W. Bruhn, M.P.P., acquired control of the Tyee Mining Company's properties, including among other claims the famous old producers, Tyee, Lenora and Richard III.

Under the terms of the agreement, which was negotiated by Oliver Besner, P. E. Peterson, M.E., and J. W. Southin, the group which, with Alex Mackenzie, several years ago consolidated the Mount Sicker properties, \$10,000 will be spent at once in dewatering the old workings and exploring the known ore bodies. Upon completion of the examination and subsequent development work a 200-ton per day capacity mill will be constructed.

In addition to putting up a substantial cash sum for immediate operations, the syndicate is taking an option on the shares remaining in the treasury. Arrangements were made with N. H. Caulfield, of Victoria, who was sponsoring the sale of stock on Vancouver Island, so that the deal could be brought to a conclusion yesterday.

**EXPERT DIRECTION**  
Development will be under direction of P. W. Jacey, M.E., while P. E. Peterson, M.E., who has designed a mill for the property, will be associated with Mr. Jacey. Ample funds will be available, it is stated, to develop the mine and construct the mill.

The first work which will be undertaken will be the dewatering of the Tyee to permit the full examination of the lodes reported as having been opened by former operations. When these have been proved, the construction of the mill will proceed. It has been estimated.

## SEEK REDRESS FOR BRUTALITY

**Britain Complains to Japan Concerning Ill-Treatment Of Sailors**

**LONDON, Oct. 30 (CP-Havas).—**The British government is seeking "adequate reparation" from Japan for the "extraordinarily brutal" treatment of three British sailors by Japanese police at Keelung, Formosa.

This statement was made here tonight, along with denial of Japanese allegations that the sailors refused to pay bills. It was stated that an inquiry instituted by the commander-in-chief of the China station of the Royal Navy, Vice-Admiral Sir Charles Little, proved without doubt that the sailors paid their taxi fare and were sober when taken to the police station.

They emerged badly beaten and battered, one with his jaw broken.

**FORMALLY DENIED**  
**TOKIO, Oct. 30 (CP-Havas).—**Japanese police authorities today formally denied that three British sailors had been arrested and mistreated in Keelung, Formosa, as alleged by the British Government.

The police report of the Keelung incidents of October 6 to October 9 stated British sailors on shore leave were involved in twenty-one separate incidents, ranging from breaking of utensils and non-payment of bills in dance halls, tea houses, cafes, restaurants and the licensed quarters to misconduct toward waitresses.

Out of deference to the traditional friendship between Britain and Japan, the police report said, the local authorities in Formosa suppressed publication of the incidents which occurred during the British naval visit.

**AMBASSADOR PRESENTS CREDENTIALS TO KING**

**LONDON, Oct. 30 (CP-Havas).—**Joachim von Ribbentrop, new German Ambassador to the court of St. James, presented his credentials to the King at Buckingham Palace today.

The envoy arrived in a court landau driven by scarlet-garbed coachmen. He was accompanied by the German naval and military attaches in gala uniform.

## Change of Power Set Up Over Iraq By Bomb and Gun

**Army Coup Puts General Bekre Sidky at Head of New Government—Military Attack on Bagdad Brief and Bloodless—British Troops Are Ordered Ready for Emergency**

**JERUSALEM, Oct. 30 (AP).—**General Bekre Sidky appeared tonight as a new power in Iraq after an army coup had put a new government in power. Reports reaching Jerusalem declared Hikmat Sulaiman replaced Premier Yassin Pasha el Hashimi in a governmental reorganization forced by aerial bombardment and machine-gunning of Bagdad yesterday.

British officials in Jerusalem and Cairo ordered troops to be ready in case of an emergency in the former British mandated territory.

**ADVOCATE FOR KINGDOM**  
Sidky is known as an advocate of the movement seeking to establish an Arabian kingdom in the desert wastes of the Near East. Some reports asserted Sulaiman was made Premier only with Sidky's approval.

Sulaiman's Cabinet, however, was reported to have informed the British Ambassador at Bagdad, immediately after it came into power, that the members desired to continue friendly with Great Britain.

During the brief military attack on Bagdad, the former Amy Johnson.

## France to Build More War Planes

**PARIS, Oct. 30 (AP).—**France will add 1,500 planes to her defence units under plans approved by the Cabinet and Air Ministry. It was announced tonight. The additional planes will raise France's strength in the air to 4,000 of the most modern ships.

**GOVERNMENT URGED TO TAX COMPANIES AND BUILD ARENAS**  
**BRITISH Columbia's Legislature** ground slowly to a halt for its first week-end recess yesterday, in a third day of unrelieved debate on the main Address. Byron I. Johnson, first member for Victoria, called for a new tax on British Columbia insurance companies, and suggested creation of a British Columbia sports commission, which would build arenas at Burnaby, North Vancouver, Nanaimo and elsewhere, if Federal funds could be secured to finance the plan under provincial management.

E. E. Winch, now leader of the C.C.F. in the House, attacked the Government upon its relief policies, which he described as feudal, and ignored all references to the split in the ranks of the C.C.F. from which Social Constructive under Rev. Robert Connell have broken away.

Convening at 2:40 p.m. the House rose at 4:13 p.m. and 3 p.m. on Monday. Premier Pattullo left on

## Survey Shows 142 Ships Are Tied Up By Coastal Strike

**SAN FRANCISCO, Oct. 30 (AP).—**A survey of the Pacific Coast strike blockade showed 142 ships tied up tonight, as follows:  
San Francisco Bay and rivers, 57 vessels; Seattle, 27; Portland, 25; San Pedro and San Diego, 22; Honolulu, 6; and smaller ports, 4.

## SIX MOTHERS MAY BE TIED

**All Claiming Eligibility for Share in Toronto's Stork Derby Stakes**

**TORONTO, Oct. 30 (CP).—**Less than twenty-four hours before the close of Toronto's famous "Stork Derby," Mrs. Isabel MacLean announced she had notified executors of the estate she would seek the \$300,000 award loudly claimed by half a dozen others.

The contest, started by Charles Vance Miller with his death on October 31, 1928, leaves a fortune to the mother who has borne the most children in the ten years ending tomorrow.

**MOTHERS OF NINE**  
Mrs. MacLean enters the race with nine children, all of whom she claims are eligible. Her entry makes possible a tie among six mothers, all of whom claim to have at least nine registered births in the decade.

Some claim more, but lack of registration and other difficulties, plus a tacit agreement by a number of mothers to let their entries stand at nine so that the fortune can be shared has evened the strange race. The six who would be tied in such an event are: Mrs. MacLean, Mrs. Arthur Timlake, Mrs. Matthew Kennedy, Mrs. John Nade, Mrs. Pauline Clarke and Mrs. Alfred Smith. Mrs. Kennedy claims eleven and eligible and announces she will take steps to prove the registration of the other two.

**LAST-MINUTE CHANCE**  
Mrs. Grace Baginato claims nine, but lacks registration for two. For several weeks she has expected to give birth to another child and now hopes she will do so before the contest ends. The contest hour the contest ends may have considerable bearing in her case. In the event that her expected baby arrives, Miller died at 4:30 o'clock in the afternoon, but there has been no indication as to whether the race ends at that hour or at midnight tomorrow.

Value of the fortune left by Miller has been variously estimated between \$500,000 and \$750,000. It was said in one quarter today that the value would not approximate the latter figure owing to shrinkage of certain investments in recent years.

## Crew Rescued as Ship Founders

**BREST, France, Oct. 30 (AP).—**Crew of the Greek freighter Mykonos was rescued tonight by life-saving boats after the vessel ran aground ten miles past the island of Guesnart, near here.

The ship, which sent out a distress call early today, was reported lost.

## NATIONAL BODY PROMISES HELP

**Provincial Medical Association Assured of Support Regarding Health Act**

**OTTAWA, Oct. 30 (AP).—**Wholehearted support for the British Columbia Medical Association regarding health insurance legislation was promised by the executive committee of the Canadian Medical Association, which concluded its Fall meeting here tonight.

Dr. T. C. Routley, secretary and spokesman of the executive committee, dispatched a message to Dr. M. W. Thomas, secretary of the British Columbia Medical Association, saying the committee had passed a resolution pledging national support for the British Columbia association.

**NATIONAL IMPORTANCE**  
"The executive views this problem as one of national importance," the message added, "and strongly reiterates the position it has always held that the medical profession in Canada must face such legislation unitedly, even although the legislative enactment under consideration at the present time relates to but one of the nine provinces."

"You have our wholehearted and unequalled support."

## GLYCERINE SUPPLY LOW

**NEW YORK, Oct. 30 (AP).—**Shortage of glycerine, due partly to increasing armament requirements throughout the world, and partly to a decrease in production in the last year or so, is cutting down its use in automobile anti-freeze solutions, informed trade sources today.

## MARITIME STRIKE MAY SPREAD TO GULF AND ATLANTIC PORTS

**Shipping on United States Pacific Coast Tied Up By Walkout of 37,000 Ship and Shoreside Workers—Many Other Big Industries May Be Crippled as Result**

## Seafaring Men in New York Discuss Sympathetic Action

**SAN FRANCISCO, Oct. 30 (AP).—**The long-threatened maritime strike hit the Pacific coast with full force today and showed signs of spreading to the Atlantic and Gulf ports even while numerous Government agencies worked to end it quickly. About 37,000 maritime and shoreside workers left their jobs and began forming picket lines.

## REPAIR PLAN IS COMPLETE

**Funds for Home Improvement to Be Available at Banks on Monday**

**OTTAWA, Oct. 30 (CP).—**Across Canada, the Home Improvement Plan of the National Employment Commission begins operation Monday.

Canadian banks in the larger centres will receive applications for loans from home owners who have decided to make repairs and improvements. The money will be loaned on the applicant's note without endorsement.

Since the plan was announced by Hon. C. A. Dunning, Minister of Finance, and Arthur B. Purvis, chairman of the commission, much preparatory work has been done. Special forms have been prepared, printed and circulated to bank branches all over the country.

**PREPARATIONS COMPLETE**  
Extensive efforts preparatory to a national co-operative campaign have been made. Arrangements have been entered into for dissemination of information on all phases of the plan.

Loans up to \$2,000 for a maximum period of three years may be made under the plan. A home owner of good character, with an income, simply applies to his bank manager, stating the amount he wants and the purpose for which he proposes to use it.

## GERRY ENDORSES BRITISH METHODS

**Vancouver's Mayor Finds His Pet Theories Are All Operating in England**

**TORONTO, Oct. 30 (CP).—**All the economic theories he had ever advocated were now "in practical operation in Great Britain as part of the national economy," Mayor G. G. McGee of Vancouver declared here tonight. Newly returned from a visit to England, the Vancouver Mayor left tonight for Ottawa, but will return here Monday.

Mayor McGee said he had not visited England with a view to obtaining a loan for his city. "The Lord Mayor of London officiated at our Jubilee celebration in Vancouver this summer, and he invited me to repay the visit as his guest. I took advantage of the opportunity to study British methods, and I learned a lot," Mr. McGee said.

## Women and Children Killed and Mangled When Bombers Fly

**Nearly Hundred in Madrid Torn by Shrapnel From Exploding Missiles of Insurgent Planes—Scottish Red Cross Ambulances Destroyed**

**MADRID, Oct. 30 (AP).—**Insurgent planes killed eighteen children and fifteen adults, mostly women, in raids on Madrid today. (A Reuters' News Agency dispatch from Madrid said more than seventy school children were killed by bombs dropped on the Madrid suburb of Getafe. This dispatch said the Reuters' correspondent watched the mangled bodies of the children piled into delivery carts for removal to cemeteries.)

Nearly 100 of the city's terrified inhabitants were wounded by shrapnel which allied into crowds. Eleven children were among the most gravely wounded, struck down as they played noisily in the sunlit Plaza Progreso.

One of the exploding bombs killed a woman and her child in bed during the afternoon siesta. (The majority of the casualties were women, cut down by shrapnel as they chatted in line waiting for their daily ration of milk.)

The insurgent planes, which have made daily reconnoitering flights over the capital, in their two raids today for the first time dropped bombs instead of propaganda leaflets.

They first swooped down on the nearby suburb of Getafe, their bombs killing eighteen persons and demolishing their automobile at a crossing near here today.

## PATIENT MAKES GOOD RECOVERY

**Remote Treatment by Wireless Instruction Successful—Attacks Have Ceased**

**EDMONTON, Oct. 30 (CP).—**"Pulse seems good and steady," was the wireless message that twined out of the sub-Arctic tonight announcing temporary victory at least in the remote control battle for the life of Jim Parres, twenty-four, suffering from heart trouble in an inaccessible mining camp.

In the Yellowknife Bay Gold Camp two companions followed a physician's directions, flashed by wireless to save Parres' life.

"Jim says not necessary plane come now and will wait until flying commences again," Bruce Marshall operator at Yellowknife Bay, 830 miles north of Edmonton, reported.

Further instructions were sent for treatment of Parres from Dr. C. G. George, Edmonton physician who has taken remote medical care of the youthful Northerner since Wednesday when the first pleas for help came from the gold camp.

Parres had been suffering from three or four severe heart attacks daily for several days and was near death when Marshall asked for instructions. The camp was completely isolated by the "thin-ice" season which prevented airplanes making a merry flight to save the man.

He has had no heart attacks since noon yesterday.

The award for best exhibit in boxes and hampers resulted in a three-way tie for first place. McLean & Fitzpatrick, of Kelowna, B.C., and Crown Fruit Company, Limited, Kelowna, and British Columbia Fruit Shippers of Vernon shared the honors.

For the best exhibit in barrels and half-barrels the first prize went to the Border Fruit Company of Canby, N.B. United Fruit Companies of Nova Scotia, Kentville, was second.

## SEVEN KILLED IN SMASH

**ROCKMOUNT, Ga., Oct. 30 (AP).—**All of the party of six children and the mother of one, returning home from an outing in the country, were killed as a Southern Railway freight train demolished their automobile at a crossing near here today.

## Prizes Are Presented At Victoria College At Annual Event

Eighteen Scholarships and Bursaries to Value of \$1,035 Given at Interesting Function Yesterday Afternoon at Special Ceremony

EIGHTEEN scholarships, bursaries and special prizes to the value of \$1,035, were presented yesterday afternoon to, or on behalf of, seven young women and eleven young men students who were at Victoria College last year.

The awards were made at Victoria College in the presence of the student body of Victoria College, members of the college faculty, and donors or representatives of the donors. V. L. Denton, principal of the Provincial Normal School, Mount Toimie, was the guest speaker of the afternoon, and another special guest was M. Auge, French consul-general in Vancouver. Among others who addressed the students briefly, in connection with the presenting of prizes, were George Jay, former chairman of the Victoria school board; A. D. Macfarlane, K.C., Joseph B. Clearhugh and Major F. V. Longstaff.

### PRINCIPAL EMERITUS

Principal P. H. Elliott, who presided, brought a message from the venerable principal emeritus, Dr. E. B. Paul, who, from his sickbed in hospital, sent best wishes to the guests, staff and students.

Referring to college conditions during 1935-36, Professor Elliott recalled that there had been 212 students, slightly more than this year. The usual standards had been maintained, to the satisfaction of the university. There had been no changes on the staff or in the courses, with the exception that Miss Rosa had given a course in Canadian history, with special attention to British Columbia. Prof. Elliott also spoke of the unusually good library of 5,000 volumes, now possessed by Victoria College. This library had no deadwood, and Victoria College facilities were in this respect stated to be "superior to those of the university." The last of the Carnegie grant for \$3,000 had now been spent.

### CHANGING BASIS

The fact that Victoria College was one of the few educational institutions in Canada that paid no way was made the subject of congratulatory comment by V. L. Denton, principal of the Normal School, in the opening part of his talk. There was something valuable to the students in attending a college that had a certain "humbleness" and lack of ostentation. A certain danger might attach to the creation of large buildings and the filling of them with highly paid staffs. From the very fact of their relative numbers, Victoria College students derived the supreme advantages of closer contact with their professors and closer friendship with each other.

A student could easily get lost in a college of ten or three thousand students, and the larger the student-body the greater the difficulty in maintaining the group spirit and co-operation between staff and student body. Students going on from Victoria College to the Normal School frequently spoke to him of the fine advantages they had experienced in their college work.

### SALIENT QUESTIONS

"Why are you attending Victoria College? What is the driving motive that has taken you up that hill? What do you expect to get at Victoria College?" Mr. Denton said all students should ask themselves these questions, and attempt to give a definite and satisfactory answer; try to select some definite course that could be followed throughout college life. It was a most dangerous thing for a young person to attempt to get an education just from the point of view of broadening social contacts; education should be purposeful. The race was not only to the swift; it must also have direction.

"On this continent there has been an emphasis on the gaining of factual information. Certain values get lost when that is set up as the ideal of education. The things above all else that we should get from our college must have a moral value, an 'inside' value," urged the speaker.

### THE PRIZES

The following awards were made yesterday: Royal Institution and Frank Eaton Memorial scholarship of \$20, awarded to the student taking the highest standing in the second year English. Won by Margaret G. Rice (now in attendance at the University of British Columbia, and, therefore, not present), presented for delivery to the winner, by George Jay.

Agnes Deans Cameron Scholarship of \$50, donated by Mrs. F. V. Longstaff and awarded to the student obtaining the highest standing in the English of the first year and continuing the course in the second year at Victoria College. Won by

## LAST DAY OF WINTER FAIR

Tourist Trade Exhibition in Armories to Close at Midnight

Citizens today will have a last chance to visit the outstanding second annual Winter Fair organized by the Tourist Trade Development Association in the Bay Street Armories, under management of T. H. Estick. The big indoor exhibition was opened by Hon. Eric W. Hamer, Lieutenant-Governor, on Monday afternoon, and will close at midnight tonight.

Entertainment during the afternoon and evening will be provided by a cowboy and Indian duo, Pierrot and Pierrette, Curley's Harmonica Harpists, several singers and the Show Boat Baby Sextette in "Parade of the Wooden Soldiers" and "Peek-a-Boo." From 2:30 to 4 o'clock, Mrs. M. A. Foulds, of B.C. Electric home service department, will give a cooking demonstration. Miss C. M. Martin will judge a cake competition for three prizes.

All children in Halloween costume this evening will be admitted free. Every adult will be allowed to take one child free. Other unaccompanied children not in fancy dress are to be admitted at a reduced price.

**COSTUME PARADE**  
Led by a clown, there will be a costume parade at 9 o'clock with judging for the best outfit. Prizes are to be awarded. Children who won prizes in the ticket-selling competition will receive their awards from Mrs. David Leeming at 10:45 o'clock.

Those who visited the fair during the past five days were loud in their praise of the modernistic booths displaying home products and manufactured articles. A busy midway, housing many games played with stage money attracted throngs.

## GOVERNMENT URGED TO TAX COMPANIES

Continued from Page 1

tence of 7,000 Socialist votes in Burrard at the by-election disclosed a condition that could give rise to a very few party cheers. Mr. Winch followed this lead by reciting the vote at the Olmeca by-election, to show Liberals had dropped 180 votes, while the C.C.F. had gained 168.

Opening debate for the day, Mr. Johnson complained that though the Dominion housing loan scheme had been in effect for three years, no advantage of it had been taken by British Columbia. Large Eastern finance companies, he said, could not be persuaded to invest within the Province.

Between 1932 and 1935, life insurance companies had collected some \$52,000,000 in premiums in British Columbia, paying out \$15,000,000 in claims, for a net withdrawal of \$37,000,000 in cash from the Province. British Columbia investments by the same companies had been reduced by \$5,000,000 in the same period, he said.

**WOULD LEVY TAX**  
Mr. Johnson recited the case of a businessman who would have spent \$300,000 in British Columbia, if he could have got the \$30,000,000, and urged the Government "to consider seriously a tax on companies sending wealth out of the Province." He rehearsed the East-West trade argument, to reiterate that British Columbia citizens spent more for automobile market protection than they earned in disposal of its timber resources yearly; and invited the Government to set up a Department of Trade, before advocated.

Pointing to conditions among unemployed youths at Burnaby and North Vancouver, Mr. Johnson suggested that the Government consider creation of a commission to administer playgrounds; and to seek Federal funds for the construction of sports arenas at several Coast points in a works programme to be carried out by the Province. The work, he urged, would help employment, and the completed arenas would serve as sports centres for youths. Municipalities could be asked to donate the sites and the operating costs, leaving receipts free as revenues to the commission, if set up.

**POLICY SCORED**  
E. E. Winch (C.C.F. Burnaby) took the Government to task for its reputation of responsibility for transient single men within the Province. He told of the plight of homeless men gathered around camp fires along the railroad tracks, and of the arrest of some of them for selling flowers on the streets in Vancouver. Under feudal conditions, their lot could not have been worse, he averred.

Warning to his task, Mr. Winch declared that at one place in Vancouver "3,047 families are living in one room," an assertion which the House mildly questioned. Back of the speech, however, which touched

## on mental homes, jails, and the plight of the underprivileged generally, was a warm human understanding which earned for Mr. Winch a generous round of desk-thumping at the close of his remarks.

Clive Plante (Independent, Peace River) adjourned debate for the day, the House rising almost immediately, until 2 p.m. on Monday.

## TRAWLER SINKS AFTER COLLISION

Four of the workmen, all residents of Brooklyn, were taken to a hospital to be treated for injuries. The Tom Morgan sank in forty feet of water as the oil tanker rammed the port side of the trawler amidships, in the inlet between Rockaway Point and Brooklyn. The workmen were picked up by small boats in the vicinity and coast guard patrol boats and police launches.

## APPEAL OF INDIANS IS DISMISSED

Supreme Court of Canada Also Upholds Conviction Of Charles Russell

GEORGE BROTHERS WERE TRIED TWICE

OTTAWA, Oct. 30 (P.—) Appeals of four men convicted of murder in the British Columbia courts were dismissed today by the Supreme Court of Canada. The men were Richard Eneas, Eneas and Alex George, three Indian brothers convicted of murdering a policeman, and Charles Russell, convicted for the murder of a bank teller in Vancouver.

The court did not give judgment in the appeal of Earl Dunbar, who was convicted with Russell for the same murder. The man killed was William Hobbs, shot by a gang which held up the bank. Russell was alleged to have taken part in the actual holdup and to have been one of the party which entered the bank.

**REMAINED OUTSIDE**  
Dunbar was said to have remained outside as the driver of the car in which the bandits made their escape. His ground for appeal related to his claim that he was an unwilling party to the affair and was forced into it by threats from the others, two of whom took their own lives rather than submit to arrest.

Russell's defence was his own testimony that he was not present at the holdup. Arguments on the appeals were heard two weeks ago with Hon. Gordon Sloan, Attorney-General for British Columbia, appearing for the Crown.

**UNUSUALLY LONG CASE**  
Argument in the George case was unusually long, and occupied the better part of a week with Stuart Henderson, of Victoria, pleading for the Indians.

The three brothers were twice tried and found guilty of the murder of Constable F. H. Gibson, of the Royal Canadian Mounted Police, at the Nootka Indian Reserve in May, 1934. Gibson, with Constable Carr of the British Columbia Provincial Police, attempted to arrest Eneas George on a charge of stabbing his wife.

The woman, according to the evidence, was badly wounded when Eneas, along with other Indians, became intoxicated on home-brewed cherry brandy. Eneas and his brothers resisted arrest, and in the ensuing fight the constables were killed. Their bodies were thrown in the Nicola River.

**DATE SET FOR HANGING**  
VANCOUVER, Oct. 30 (P.—) Next Friday, a week from today, is the date set for the hanging of the four men whose appeals against murder convictions were dismissed by the Supreme Court of Canada.

Eneas, Richardson and Alex George have twice been reprieved pending the results of appeals, the last time from May 8. Both Charles Russell, whose appeal also failed, and Earl Dunbar, upon whose appeal no judgment was given, are under sentence to hang Friday, November 6.

T. F. Hurley, counsel for Russell, announced today he will apply tomorrow to Chief Justice Aulay Morrison of the British Columbia Supreme Court, for a reprieve, pending an appeal to the Minister of Justice for a new trial.

**PIONEER CITIZEN TAKEN BY DEATH**  
Thomas Grace, aged seventy years, a resident of Victoria for the past forty-seven years, passed away early yesterday morning at the family residence, 229 Hillside Avenue. He was well known in this city, and his death will be regretted by a wide circle of friends.

Mr. Grace, who was born in Market Rising, England, came to Canada when he was eight years old. He was educated in the schools of Eastern Canada, and for a few years was engaged in farming in Pictou, Ontario. Then he moved to Western Canada, and for more than thirty years was employed as engineer at the B.C. Electric Railway Company's power houses. Owing to ill-health, he went into retirement four-and-a-half years ago.

He is survived by his widow at the family residence, and one sister, Mrs. Elizabeth Bryant, Pictou, N.S.

## Little Stories for Bedtime

Chatterer Does a Little Spying  
By THORNTON W. BURGESS

Chatterer the Red Squirrel watched Jenny Wren out of sight, and all the time he appeared to be in a brown study over something. The truth is he was thinking of something Jenny Wren had said and wondering how he could turn it to his own advantage. You know, Jenny had been gossiping. Yes, air, that is what she had been doing. She had been gossiping about Bully the English Sparrow and Mrs. Bully, and she had mentioned the fact that they had six eggs in the nest they had built in the house they had stolen from Skinner the Swallow. The very mention of eggs always set Chatterer's mouth to watering. And Jenny had said that the given name of them! He shut his eyes and tried to picture six eggs in his mind. The more he did this the more his mouth watered.

"I must have a look at this Bully and his wife," thought Chatterer. "I know that a couple of strangers had come to live in the Old Orchard, but I hadn't given them any attention. If they are not too big it may be—just may be—that something will happen to those eggs, just as Jenny Wren wished." There was a wicked twinkle in Chatterer's eyes as he thought this.

Later in the morning Chatterer visited the Old Orchard quite as if he had nothing particular on his mind. He jumped from one old apple tree to another, and every time he came near a nest he came in for a round scolding. But he didn't mind this. He was used to it. He scolded back and to have heard the noise you would have thought that a dreadful quarrel was in progress, when really it didn't mean anything at all.

But Bully the English Sparrow and his wife, who had moved out from the city, didn't know this, and they promptly bustled out to see what was going on. Bully noticed right away that Chatterer didn't offer to go very near any of the nests, so right away he made up his mind that Chatterer was a coward.

"If he comes over here I'll show him what is what!" boasted Bully. "That night Chatterer chuckled as he curled up in his snug bed. 'Tomorrow,' said he, 'I will dine on eggs—six eggs! Um-m-m, I can almost taste them now!'"

**"ONLY A TRICK"**

How many players, I wonder, have been troubled to consider the points lost over an appreciable period of time through the occasional dropping of just one trick. The accumulation, I venture to say, would surprise them. In the long run, each lost trick will be found to cost something in the neighborhood of 250 points. (This is taking into account that, at times, a trick may cost as little as twenty points, and, at other times, when a slam is lost that should have been won, well over 1,000 points.) Assuming an average of seven rubbers (which average five hands each) to the session, and further assuming that a player makes only five mistakes (which puts him in the expert class), the loss per session is roughly 1,250 points. Of course, it will be a great deal more if the errors occur on "swing hands." But let us stick to the 1,250, and multiply that sum by the number of sessions played in a year. The result is apt to be a severe headache.

In today's hand the declarer dropped "just one trick" in the play. His bidding was much vulnerable. Both sides vulnerable.

**TODAY'S QUESTION**

Question—What are the requirements for a raise of one no trump to two no trump?

Answer—(a) One and one-half honor tricks in at least two suits, or (b) One plus honor trick when the strength is divided among three suits and the hand as a whole contains four or more honor cards, or (c) One plus honor trick in two suits provided the hand contains a five card suit headed by the queen or any higher card, or (d) One honor trick in the hand with any six card suit if the honor trick is in at least two suits and the six card suit is headed by the queen or a higher card.

**TOMORROW'S HAND**

South dealer. Both sides vulnerable.

**NORTH**  
♠ 9 5

♣ K 10 8 5

**WEST**  
♠ 10 9

♦ K 4  
♣ A Q 3 2

**EAST**  
♠ Q J 6  
♥ J 10  
♦ A Q 9 3  
♣ A 7 4

The bidding:  
East South West North  
1 ♠ 1 ♠ 2 ♠ 2 ♠  
2 NT 2 ♠ Double Pass  
Pass Pass

Most of the bids were of questionable soundness. South's first overall was none too robust, and the same comment applies to North's free raise. East's free rebid of no trump, also, was on the shaded side, but it did have the large virtue of advertising the spade stopper and balanced distribution. Had East passed on this round he might have been embarrassed later for the correct bid. South's rebid was inexcusable. After North's spade raise South had excellent defence against a no trump contract, and little reason to think he himself might go game. As a matter of fact, had South correctly passed to two no trump West would have been sorely pressed to find the correct game contract. Four hearts could have been made, but it is much more likely that West would have chosen three no trump, which would have been defeated easily. The three spade bid resolved West's difficulty. He simply doubled.

West opened the diamond king and continued with the four. East won and cashed the third diamond trick, after which he led a fourth round to let West kill the declarer's diamond trick with a ruff. West duly ruffed with the nine and the declarer committed the inexcusable (but common) error of overruffing with dummy's king. After that declarer still had to lose two trump tricks, two hearts, and a club. Had he correctly discarded a heart from the dummy while West ruffed the diamond he would have saved 300 points of his absurd 1,100 point "sacrifice."

**REPAIR PLAN IS COMPLETE**

Continued from Page 1

His note is the only security required. No endorsement will be asked. He must, however, use the money for the purpose stated. Farmers come in on the same basis as urban dwellers. It is a form of easy borrowing, the money to be paid back on the installment plan. In terms of discount and interest, the charge is 3 1/4 per cent discount on a one-year loan repayable in monthly installments. This is the same as 6 3/4 per cent per annum interest.

For example, on his note for \$100 drawn for a year, the borrower receives \$96.75. He will pay back the loan in twelve installments of \$8.34 each. On a two-year note of \$100, the borrower will get \$93.82 and pay back twenty-four installments of \$4.17 each.

The plan was made possible by an arrangement between the Government and banks under which the former guarantees the latter against losses up to 15 per cent on the aggregate value of loans.

**COMPLETE DEAL FOR MINES NEAR DUNCAN**

Continued from Page 1

That 240,000 tons of mined ore remain on the old dumps on Mount Sicker. This was not considered of sufficient value to pay for the haulage to the smelters at Ladysmith and Crofton, thirty years ago, but today will make valuable mill feed under present day metallurgical methods.

**GOLD AND COPPER**

Mount Sicker ore carried considerable gold values in addition to a high percentage of copper, and with the added price of gold, in Canadian funds, as well as the improvement in the copper situation, the mined ore is attractive.

During the past two years several examinations have been made of the property, and very satisfactory reports were made on it by prominent geologists and mining engineers.

At one time there were three mines operating on a large scale on the mountain, which is near Duncan. Two smelters were built to handle the ore, one at Ladysmith and Crofton, thirty years ago, and another at Crofton for the output of the Lenora. Two townships were laid out and two haulage systems were operated from the hill.

The consolidation of all the claims on Mount Sicker permits the operation to be carried on economically as a single unit, while electric power is now available by a short line up the slope on the old right-of-way of the "Tyne aerial tram line."

**Provincial Secretary Paints Direful Picture of Disease Rampant in Province**

VANCOUVER, Oct. 30 (AP).—Pulse of the work being accomplished by the British Columbia Board of Health was expressed by Lieutenant-Governor Eric Hamber today as he officially opened a new Provincial Government tuberculosis clinic at the Vancouver General Hospital.

The Lieutenant-Governor stressed the need for two further additions to the facilities of the hospital, stating that a cancer clinic and a new nurses' home were absolutely imperative.

**A GREAT FIGHT**

"We are waging a great fight against tuberculosis in the Province," Hon. Dr. G. M. Weir, Provincial Secretary, said in his opening address.

"The death rate from the disease is now 500 a year in the Province," he said. "There are 4,000 cases registered at the Vancouver clinic. Our Lower Mainland traveling clinic found 137 new cases in one week."

"Our Interior traveling clinic recently found 152 new cases in Kelowna and Vernon alone."

The Provincial Secretary said tuberculosis, cancer and social diseases were a triple threat today. He said there were 150,000 cases of social diseases in the Province.

"Thirty per cent of those suffering from it are guilty of their predicament," he said.

"If neglected for six months it means a mental home and lingering death and what would cost \$100 to save will end up by costing the Province \$10,000," Dr. Weir said, adding that he made this startling statement to break a "conspiracy of silence" regarding this disease.

The very stout woman tackled a bus inspector at a busy stopping place.

"I want to report the conductor of the bus that's just gone!" she shrieked. "He's been rude!"

"How?" asked the bored official. "Why?" went on the woman. "He was telling people the bus was full up, and when I got off he said: 'Room for three inside!'"

### Reading Club Hears Review By Miss Cann

"South Riding" by Winifred Holtby and "The Thinking Reed" by Rebecca West, were the two novels reviewed by Miss Jeanette Cann before a large gathering of members of the Reading Club at the Y.W.C.A. yesterday afternoon.

Miss Cann prefaced her reviews with a few remarks about the novel in general, which, she said, was a personal experience upon which the reader's heredity and training had direct bearing. Thus, she continued, "my own comments cannot be in any way authoritative, but may, perhaps, cause you to wonder about the books and perhaps make you observe some things which you have not noticed before."

Both books dealt with contemporary life, which, she said, was difficult to depict. The writer and reader alike, were inclined to "take sides" and to be so vitally concerned with the life of the present moment, that a detached point of view was almost impossible.

Such great matters as Shakespeare, Thackeray, Jane Austen and in more recent times, Arnold Bennett, had achieved this detached point of view. Miss Cann was of the opinion that the present decade was unfavorable to great works of literary art. Of the great novels she mentioned "Pride and Prejudice," "Vanity Fair" and "Old Wives Tale."

**PRESENT-DAY LIFE**

Winifred Holtby and Rebecca West had written of slices of present-day life, which were entirely opposite in the social scale. "The Thinking Reed" dealing with the extremely wealthy class, and "South Riding" with a wretchedly poor people. The

author of "South Riding," Miss Cann stated, was by nature a missionary, and the book shows deeply serious feeling on the part of its author. The central figure was the product of modern education in England, a type vastly different from any produced in Canada. Hard training and disciplined living, the advantages of being "nearer the centre of things" had a definite effect upon the young woman of England.

Such a woman was Sarah Burton, the central character in "South Riding." Extracts from the book were read by Miss Cann, her choice of these adding in great measure to the understanding and appreciation of the audience.

**DEVASTATING IRONY**

Rebecca West, on the other hand, had dealt with a class of people whose chief aim in life was to "put through a day without doing any thinking at all." There was humor, devastating irony and keen observation in this novel, which, Miss Cann said, did not have, in her opinion, a conclusive ending, the reader being left to draw his own deductions.

Miss Wormald, who was in the chair and introduced Miss Cann, expressed to her the thanks of the audience.

**Keating**

An enjoyable surprise party was held recently at the home of Mr. and Mrs. B. Hoole, Giles Road, in honor of the nineteenth birthday of their daughter, Barbara. During the evening games and contests were enjoyed, and supper was served at midnight by the young guests. Those present were Misses Wilmar Ambrose, Nora Chipperfield, Margaret Melkjohn, Sylvia Monckton, D. Nightingale, Dorothea Walker and Isabel Welch, Messrs. James and Wilfred Amos, "Pat" Hoole, John Monckton and James Oldfield.

### Hallowe'en Party Held At Lake Hill

Numerous sacks of potatoes, boxes of apples, and bags of beets, carrots, and other vegetables; also scores of jars of preserved fruits, jams, and jellies, and a useful donation of cash were received for the Queen Alexandra Solarium at the children's fancy-dress Halloween party held last evening at the Lake Hill Community Centre under the auspices of the Women's Institute of that district.

The party began about 5 o'clock, and by the time the grand march started, three-quarters of an hour later, more than 100 children had arrived in costume to participate in the fun.

Fancy dress was of every conceivable design, but Halloween inspired the theme of the majority. Witches, hobgoblins, cats, and bats gave appropriate character to the gay procession, while the black and orange traditionally associated with the anniversary were the dominating colors in the decorations as well as in the costumes. Both upstairs, where the games, dancing and community singing took place, and downstairs, where a generous feast of sandwiches, cake, jelly and whipped cream, and cocoa were served, effective decorations were achieved with pumpkins, painted orange and black ribbons, and festoons.

**PROVIDED SUPPER**

Mrs. M. Porter was in charge of the grand march, and Mrs. G. L. Service was at the receipt of costumes. The Lake Hill Women's Institute provided the excellently organized supper, entertaining a number of the parents as well as the children. Mrs. M. Bowers, Mrs. A. P. Webster, Mrs. T. Simmonds, Mrs. Currie, Miss Tully and Mrs. Holyoak were responsible for the refreshments and serving. Before leaving, each child was presented with candies.

Three members of the Victoria Women's Institute had charge of the judging of the children's costumes, and had some difficulty in selecting from the many attractive dresses worn by children between one and six years, girls between six and ten; boys between six and ten; girls between ten and fourteen; boys between ten and fourteen; and the best Halloween and best comic costumes. The three judges were Mrs. William Peden, Mrs. H. D. Watson and Mrs. T. C. Johns.

About fifty guests assembled at the home of Mr. and Mrs. H. A. White, 3245 Dublin Street, last night for the wedding of Mrs. White's sister, Olive Bernice, youngest daughter of Mr. and Mrs. A. W. Palmer, Island Highway, and Mr. Charles Middleton Crawford, younger son of Mrs. I. Crawford, of England. During the ceremony, which was conducted by Rev. E. F. Church, the bride and groom stood beneath an arch of pink and white roses and greenery.

The bride, who was given away by her father, wore a pretty frock of white lace, cut on slim-fitting lines, with tiers of flounces below the knees which flared to floor-length. The bodice had a yoke of net which extended over the shoulders, and ended in three frills forming cape sleeves. She also wore lace mittens, and a wreath of orange blossoms in her hair, and held a shower-bouquet of pink roses and white carnations. Miss Jean Munroe, the only bridesmaid, wore a frock of silver net over Nile green satin, with large puff sleeves, and buttons down the front from throat to waist, and tied with a green satin sash. She wore a spray of silver flowers in her hair and held a sheaf of bronze chrysanthemums. Mr. George King was best man.

For the occasion the house had been beautifully arranged with a profusion of chrysanthemums and roses. Silver vases filled with roses stood at each corner of the supper table, which was centered with the three-tier cake. Mrs. Palmer wore for the wedding a navy blue and white polka-dot crepe dress adorned with a corsage bouquet of carnations, and a black hat.

Mr. and Mrs. Crawford will make their home at Cowichan Bay. The bride went away in a rust wool two-piece dress, a brown sports topcoat, and a matching turban and veil.

### What Today Means

"SCORPIO"  
If October 31 is your birthday, the best hours for you on this date are from 10 a.m. until noon, from 3 to 5 p.m. and from 9 to 11 p.m. The danger periods are from 8 to 10 a.m., from 1 to 3 p.m. and from 5 to 7 p.m.  
Be careful not to let the Halloween spirit cause you to be indiscreet

in playing practical jokes, particularly on elderly people. Suggestions this day require that they be considered from many angles, for on the whole they are liable to be offered on the spur of the moment with no regard as to the consequences that might follow their acceptance. You may be made very happy this day by some thoughtful actions of relatives or friends. Your luck if you participate in any sort of game is apt to be variable and might make your partner injured

to be irritable. Be good-natured and laugh off traceable comments. Pets are likely to be very temperamental this day so do not permit them to be teased or forced to do tricks. If going out socially, a last minute glimpse in your mirror might be wise. Married and engaged couples, as well as those whose love is reciprocated must be careful how they talk this day for sarcasm might start quarrels.

If a woman's birthday, you ought to be very intelligent, nimble of fingers, and of an extremely enthusiastic nature. Eliminate jealousy from your make-up, for this is one of the faults of those born on this date. You probably will become a social favorite and be the recipient of a great deal of attention. Through marriage, inheritance or a gift, you may get a substantial sum of money. Do not neglect your friends by failing to visit them for you are liable to need their support in furthering some ambitious plan. As a sculptor act-

ress, sales representative or author your name perhaps will become well known. Your married life seems free of complications, for you will let common sense and love dominate your home life.

The child born on October 31, usually during adolescence, is highly very sensitive and too much inclined to keep to itself. These characteristics can be overcome with little effort. Self-reliance must be instilled in this youngster.

If a man and October 31 is your

### Discovery Points To Old Tragedy

DUNCAN, Oct. 30—Thomas Polkey, William Barter and Harry Haywood, workmen excavating a ditch on the Island Highway at Cowichan Bay yesterday brought to light the skeleton of a man. It was buried on a log or so under ground and it is estimated it has

been there for forty years or more. The bones were brought in to the coroner's office by Provincial police. The remains were those of a middle-aged man, five feet ten inches in height, teeth were in excellent condition and the skull was not flattened as one would expect to find in an Indian skull at that time. The man had apparently died with a violent death, the left side of the skull having been fractured during life.

# REGINA AND WINNIPEG MEET TODAY IN FEATURE

## Grid Squads Will Clash in Crucial Game in Manitoba

**Roughriders Determined to Wipe Out Five-Point Deficit and Dethrone Dominion Champions in Western Conference Final—Queens, Sarina, Tigers, Montreal Indians On Spot**

WINNIPEG, Oct. 30 (P)—Regina Roughriders swept into Winnipeg tonight, oozing determination to wipe out the five-point deficit they face in their all-important Rugby game with Winnipeg here tomorrow, and so dethrone the Dominion grid kings.

A week ago, on their home field, the mighty Riders outplayed Bombers in the first game of the total-point series, but lost, 7-4, because of a touchdown fumble and failure to convert their many scoring chances. An additional two points "Pegs" earned during the Western Confer-

ence schedule brings the series score to 9-4.

Survivor of the series will meet the Saskatchewan Union champions, Moose Jaw Millers, a week hence. Ken Bowyer, Union president, announced in Moose Jaw today that Saskatchewan Hilltops had failed to post a guarantee for the replay of a game protested successfully by Millers on grounds two Hilltops were ineligible, and Millers were declared champions.

**BEARS FACE HUSKIES**

Alberta Golden Bears will entertain University of Saskatchewan Huskies in Edmonton tomorrow in

an intercollegiate fixture. In the Vancouver big four, Meralomas meet the undefeated Vancouver Athletic Club Wolves. The Vancouver result will have no bearing on the Western play-offs, however, for the British Columbia Union has defaulted to Calgary Bronks, putting the Albertans in the Western final.

University of British Columbia, however, are negotiating with a view to bringing the winner of the Alberta-Saskatchewan College game to Vancouver for a sudden death fixture November 7 for the Western Canada intercollegiate trophy.

**EASTERN MATCHES**

TORONTO, Oct. 30 (P)—At a stage in its career where anything can happen without causing anyone surprise, the Eastern football campaign becomes a pretty grim affair Saturday on five battlefields. Such starting favorites as Queen's University, Sarina Imperial, Hamilton Tigers and Montreal Indians are squarely on the spot. One more upset—and down they go.

Ted Reeve's tricolor warriors, an imposing array of stars who can't get going, move into London to play the Mustangs of Western for the second time in eight days. The Mustangs won 10-3 in Kingston last Saturday and Bill Stoen's outfit, hailed as likely winners of the intercollegiate Union, are favorites to make it two straight over Queen's.

Sarina Imperials must defeat Toronto Balm Beach or they are through after winning the O.P.U. title five straight times. The Imperial-Balm Beach struggle in Sarina is expected to attract a crowd of 3,000, largest in the town's football history. And the home team seems to have a good edge.

McGill faces Toronto McGill, whose revolt carried the redmen to a surprising win over University of Toronto a week ago in Montreal, move into Toronto to engage the blues again. A defeat will virtually end the one and a win will send them into nothing more than a second-place tie.

Thrashed 21-0 in Ottawa by the onrushing Roughriders, Hamilton Tigers will attempt a comeback at home. The loser will have little to say about Big Four affairs hereafter.

At Montreal, the thrice-beaten Indians of Johnny Ferraro will seek a victory over Toronto Argonauts and a "life." The Indians will be all through if they drop this one and Argos will be sure of a play-off berth if they win.

## Torchy and Doug Partners in Race At Chicago Track

CHICAGO, Oct. 30 (P)—The six-day bicycle riding team of William "Torchy" Peden and his brother, Douglas, of Victoria, will swing into action here in the race which starts in the Chicago Stadium November 8. The younger Peden was a member of the last Canadian Olympic team. Torchy competed for Canada in the 1928 Olympics.

## EDDIE SHORE ON WAY TO HALIFAX

HALIFAX, Oct. 30 (P)—Burlie Eddie Shore, bad man of the National Hockey League, was on his way here to join the training tour of Boston Bruins, Manager Art Ross said tonight. But just when he was to arrive was unknown. "Either tonight or tomorrow," Ross said. "Anyway, he won't play in Saturday's game with Montreal Maroons. He's got to be in shape before he starts a game."

## Dean Detton in Bad Spot

—Central Press-Canadian Photograph.

Dean Detton, recognized in some parts of the country as world heavyweight wrestling champion, retained his "title" in a tough tussle at Olympic Auditorium, Los Angeles, with Bill Hanson, winning in two straight falls. In this picture Hanson (standing) has an Indian "death grip" on the "pain-stricken" champ, but he couldn't hold the Oklahoma warrior prone long enough to win the fall.

## HAMMOND HITS OUT CENTURY

Registers Third Great Score in Four Matches for English Cricketers

ADELAIDE, Australia, Oct. 30 (P)—Hitting his third century in four matches, Walter Hammond, English international cricketer, scored 104 out of a total of 233 runs made by the touring M.C.C. team in the opening day's play against South Australia today. The Aussies replied with 11 for one wicket when poor light stopped play.

While his colleagues fell before the deliveries of F. Ward, clever young spin bowler, Hammond put up a sterling defence but dealt severely with loose balls. He was particularly hard on Charles Grinnett, veteran Australian international, frequently sweeping his offerings to the leg boundary. The Gloucestershire pro stayed at the wickets more than three hours and his 10 fours, Hedley Verity, Yorkshire, made 31.

Ward gave a display of clever fighting and varied his pace. He captured five wickets for 79 runs while Grinnett obtained two for 62. Sympathy was expressed for Don Bradman, famous batsman, who did not play for the South Australians as expected. Yesterday his wife gave birth to a son but the child died later.

Cold weather and occasional showers interfered with today's play. The match is scheduled for four days.

Man has always been a victim

When a man stops reckoning, he gets into trouble, especially when he reckons without his host.

**ROUND-UP DAY PROBLEMS: THE WIFE WHO HASN'T HAD A REAL VACATION IN TWENTY-SIX YEARS—A DISTRACTED AUNT WRITES ABOUT A DANGEROUS MARRIED WOMAN—THE YOUNG MAN WHO IS FRIENDLESS BECAUSE HE DEVOTED ALL HIS TIME TO ACQUIRING KNOWLEDGE**

Distracted Aunt: By all means acquaint the woman's husband with the facts of the case. A married woman who will demoralize a young man to the point of temporary insanity should be restrained, legally if necessary. It may be that the husband will provide some sort of effective control and prevent other young men from being preyed upon by a dangerous woman.

Mac: One who is interested in your problem writes that it is not your friends to which your parents object, but your failure to realize that Sunday is, traditionally, a family day, and that they would like to have you with them on this day. She suggests that you ask them occasionally to include a friend or two in their plans for Sunday at home. I second the suggestion.

From Downcast, "I am a young man a couple of years in my twenties. I'm practically a hermit. Always in love with learning. I studied everything. Today I know nothing. I spent my time alone, and today find myself friendless except for a few chattering bookworms. I am unemployed - partly because I gave so much to books I had no time for work. Now, I've found human beings cannot be unusual and happy at the same time. I'm naturally backward. Can I ever get started in the real world?"
